

Adjustable Pedestal Fan with Spiral Blades

This electrical fan is designed for household use, featuring spiral blades for optimal airflow. It is mounted on an adjustable stand with a control knob for speed adjustments.

Product Overview

Professional Grade Pedestal Fan

This adjustable pedestal fan is engineered for effective air circulation in residential and professional environments. It features high-performance spiral blades designed for optimal airflow and a robust, chrome-finished adjustable stand for versatile positioning. The unit includes a user-friendly control interface for precise speed adjustments, ensuring reliable cooling performance.

Technical Specifications

Blade Design	Spiral Blades
Adjustable Stand	Yes
Stand Finish	Chrome
Control Method	Manual Knob

Safety & Construction

Safety Features	Protective Grill, Stable Base
Power Connection	Electrical Cord

Performance Metrics

Key Performance Features

- Spiral blade technology for enhanced airflow
- Adjustable height stand
- Integrated speed control knob
- Durable construction
