

Adjustable Privacy Shower Enclosure

This shower enclosure features dimmer glass technology for adjustable privacy. It is constructed with tempered glass panels and includes a hinged door with chrome hardware.

Product Overview

Modern Privacy Solution

This frameless shower enclosure features advanced dimmer glass technology, allowing users to seamlessly switch between transparent and opaque states for on-demand privacy. Designed with a sleek, contemporary aesthetic, it incorporates high-quality tempered glass panels and durable chrome hardware. The low-profile threshold ensures easy access, making it an ideal choice for both high-end residential bathrooms and luxury hospitality applications.
