

Adjustable Recessed Grille Spotlight

This interior spotlight features a black box design with seamless border joints for a refined appearance. Its double loop design and adjustable radial angle allow for customized stereo effects on different items.

Product Overview

Adjustable Recessed Grille Spotlight

This recessed grille spotlight is designed for high-end interior illumination, featuring a sophisticated black interior finish and a seamless, borderless design. The fixture incorporates a double-loop mechanism that allows for precise radial angle adjustment, enabling users to create perfect stereo lighting effects for specific items. Built with practical maintenance in mind, it includes integrated dust cooling holes and a robust, efficient electronic transformer.
