

Adjustable Spray Pattern Brass Nozzle

This adjustable brass nozzle is designed for a variety of watering and cleaning applications. Constructed from durable brass, it offers adjustable spray patterns from a fine mist to a powerful stream.

Overview

Versatile Brass Spray Nozzle

This adjustable brass nozzle is engineered for high-performance watering and cleaning across a variety of professional and domestic applications. Constructed from heavy-duty brass, it provides exceptional durability and reliable performance in demanding outdoor environments. The intuitive design allows users to transition seamlessly from a gentle fine mist to a concentrated high-pressure stream, making it an essential tool for gardening, vehicle maintenance, and general site cleaning.
