

Adjustable Tablet Desk Mount with Clamp

This tablet desk mount features a steady clamp base for secure attachment. Its flexible conduit connection offers free angle adjustment to meet various consumer needs.

Overview

Versatile Tablet Mounting Solution

The VM-PAD04 is a versatile tablet mounting solution designed for secure and flexible positioning. Featuring a robust clamp base that attaches easily to desks, tables, or other surfaces, it provides a stable foundation for your device. Its flexible gooseneck arm allows for effortless adjustment of viewing angles and orientation, making it ideal for presentations, point-of-sale systems, or personal use.
