

# Adjustable Telescopic Reading Lamp

This adjustable reading lamp features a conical shade and base. It has a telescopic arm for height adjustment and is available in various colors.

## Product Overview

### Versatile Illumination Solution

This adjustable reading lamp combines functional design with flexible utility, making it an ideal choice for professional workspaces or bedside environments. Featuring a telescopic arm, the lamp allows users to easily customize the height and angle of the light source to suit specific tasks. Its conical shade ensures focused illumination, while the stable base provides reliable support for daily use.
