

# Adjustable Temperature Steam Iron

This steam iron features adjustable temperature settings for various fabric types. It incorporates a self-cleaning function to maintain optimal performance and extend the lifespan of the appliance.

## ADDITIONAL IMAGES

## Overview

### Professional Steam Ironing Solutions

This high-performance steam iron features a robust 2800W power output, ensuring efficient wrinkle removal on various fabric types. Equipped with a ceramic soleplate and precision mechanical temperature controls, it offers consistent heat distribution for professional results. The integrated self-cleaning, anti-calc, and anti-drip systems ensure long-term reliability and garment protection for busy environments.

## Performance Metrics

### Key Performance Metrics

**40 g/min**

Continuous Steam Rate

**350 mL**

Water Tank Capacity

**2800 W**

Maximum Power

## Technical Specifications

### Electrical Requirements

- Voltage: 220-240V
- Frequency: 50-60Hz
- Power Range: 2400-2800W

### Dimensions

Component	Size (mm)
Full Product	295 x 130 x 150
Soleplate	250 x 130

## Features

### Core Features

Mechanical Temperature Control, Ceramic Soleplate, Anti-Drip, Anti-Calc, Self-Cleaning, Vertical Steam, Spray Function
