

Adjustable Temperature Steam Iron

This steam iron is designed for effective wrinkle removal on various fabric types. It features a non-stick soleplate, adjustable temperature settings, steam control, and a self-cleaning function.

Product Overview

Professional Steam Ironing Solution

This versatile adjustable temperature steam iron is designed to deliver professional results for all fabric types. Featuring a robust 19-hole steam diffusion system and variable steam control, it ensures optimal steam penetration and effortless wrinkle removal. Built for durability and convenience, it includes a self-cleaning system with anti-clogging technology and a large 337ml transparent water tank.

Key Functional Features

- Dry Ironing Function
- Spray Function
- Variable Steam Control
- Powerful Burst of Steam
- Dial Thermostat Control
- Pilot Indicator Light
- Self-Cleaning System
