

Adjustable Temperature Steam Iron

This steam iron features a transparent water reservoir and adjustable temperature control. It also has a non-stick soleplate and steam burst function for effective garment care.

Overview

Versatile Steam Ironing Solution

This adjustable steam iron offers multiple ironing modes including dry, spray, and vertical steam, ensuring flexibility for various fabric types. With a powerful 1600W output and a precise 60-240°C temperature range, it provides consistent heat performance. Designed for durability and safety, it features high-quality PBT heat insulation and a range of international certifications to meet rigorous professional standards.

Technical Specifications

Rated Power

1600 W

Power

220 V

Voltage Range

Steam Output

10 g/min

Water Tank Capacity

150 ml

Design and Dimensions

Product Dimensions

- Iron: 25.0 x 12.5 x 19.0 cm
- Soleplate: 19.5 x 10.6 cm
- Cable length: 1.5 m

Construction Materials

- PBT heat insulation board
- PP water tank
- ABS+PC main body

Certifications

Safety Standards

CE, CB, GS, EMC, LVD, ROHS, ERP
