

Adjustable Two-Light Spotlight Fixture

Hanging spotlight fixture with two adjustable spotlights mounted on a horizontal bar. The hardware is designed for directional lighting in various settings.

Product Overview

Professional Directional Lighting Solution

This adjustable two-light spotlight fixture offers a versatile lighting solution designed for precision and flexibility. Featuring a dual-head configuration mounted on a central horizontal bar, the system allows for independent adjustment of each light source to target specific areas effectively. Its sleek, industrial design and suspended mounting system make it an ideal choice for commercial, retail, or specialized workspace environments requiring directional illumination.
