

Adjustable Under Desk CPU Mount

This under-desk CPU mount features a sleek, modern design that complements any workspace while freeing up space. Mounting the CPU holder under the desk may also help improve posture.

Product Overview

Space-Saving CPU Management

This adjustable under-desk CPU mount is designed to securely hold computer towers, effectively freeing up valuable workspace. Constructed from solid steel, it offers a durable and sleek solution for both home and office environments. The adjustable frame accommodates a wide range of CPU sizes, while the integrated venting holes ensure optimal airflow to prevent overheating.
