Product Overview

Industrial Grade Adjustable Wrench

This heavy-duty adjustable wrench is engineered for professional industrial applications, offering robust performance and durability. Designed with a wide opening jaw and an integrated box end, it provides versatile fastening solutions for nuts, bolts, and pipes. Built to meet international quality standards, this tool ensures precise fitment and reliable leverage for demanding tasks.

Technical Specifications

Compliance Standards

ASME B 107.100-2020 • ISO 6787:2018 • JIS 4604:1998

Key Features

- Heavy Duty Construction
- Industrial Grade
- Wide Opening Jaw
- Integrated Box End

Material

CRV Steel, Carbon Steel
