

Adult Step-Through Tricycle with Cargo Platform

This tricycle features a step-through frame, padded saddle, and dual rear wheels for stability. It is equipped with a rear cargo platform and vertical handlebar extension.

Product Overview

Designed for Stability and Utility

This adult step-through tricycle offers a reliable and comfortable solution for daily transport and cargo hauling. Featuring a low-clearance frame for easy boarding, the design prioritizes rider safety and accessibility. With its robust dual-rear-wheel configuration and integrated cargo platform, it serves as an excellent choice for navigating urban environments or neighborhood commuting with added load capacity.
