Product Overview

Reliable Power for Critical Defibrillation

This high-performance battery pack is engineered for seamless compatibility with various AED defibrillator models, ensuring dependable operation during critical medical interventions. Utilizing Nickel-Metal Hydride (Ni-MH) technology, it provides a stable power output of 12V and a capacity of 2800mAh. Designed to meet rigorous medical equipment standards, this replacement battery is an essential component for maintaining the readiness and reliability of your defibrillation equipment.

Technical Specifications

Model Number	NKB-301V
Battery Chemistry	Ni-MH (Nickel-Metal Hydride)
Voltage	12 V
Capacity	2800 mAh

Physical Characteristics

Color	Yellow • Red
Weight	946 g
Dimensions	112 x 23 x 43 mm

Compatibility

Compatible Models

- TEC-5500
- TEC-5521
- TEC-5531
- TEC-7621
- TEC-7621C
- TEC-7631
- TEC-7631C
- TEC-7721
- TEC-7731
- X065
