

# Aerosol Can Cleaning Gun with Borescope

This aerosol can cleaning gun features an integrated borescope for precise cleaning in hard-to-reach areas. It has a detachable 3.5" monitor, flexible probe, and supports image and video recording via TF card.

## ADDITIONAL IMAGES

## Product Overview

### Professional Inspection & Cleaning Tool

This Aerosol Can Cleaning Gun with integrated Borescope is a versatile tool designed for precise inspection and cleaning tasks in tight spaces. It features a high-resolution camera and a detachable monitor, allowing for real-time visualization of cleaning processes. Ideal for automotive maintenance and industrial cleaning, this system eliminates the need for external air compressors by connecting directly to aerosol cans.

## Technical Specifications

### Camera Performance
