

# AFFF 6% Firefighting Foam Concentrate

This high-performance firefighting foam concentrate is certified to EN/BSI standards. It offers quick delivery and effective fire suppression.

## Product Overview

### High-Performance AFFF 6% Foam Concentrate

This Aqueous Film Forming Foam (AFFF) concentrate is a high-performance extinguishing agent designed for low-expansion applications. Formulated with a blend of fluorocarbon and hydrocarbon surfactants, it is free of PFOS and PFOA, ensuring it is easily biodegradable and environmentally responsible. It is suitable for a wide range of industrial fire-fighting scenarios.

## Technical Specifications

### Physical Properties

Property	Value
Density at 25°C (g/cm³)	1.00~1.10
pH (20°C)	6.0~9.0
Appearance	Pale yellow liquid
Freezing Point (°C)	-5
Foam Expansion Ratio	e 7.0

## Applications

### Recommended Applications

- Oil depots
- Refineries
- Airports
- Marine tankers
- Offshore platforms

## Compliance & Safety

### Environmental Compliance

PFOS Free • PFOA Free • Biodegradable

### International Standards

BS EN1568-3:2008
