

Agricultural and Construction Elevator with Explosion-Proof Motor

High-performance elevator designed for agricultural and construction applications. This robust elevator offers a range of H63-355mm, suitable for various lifting requirements.

Product Overview

High-Performance Explosion-Proof Elevator

This robust elevator is specifically engineered for demanding agricultural and construction applications. It features a specialized explosion-proof motor design, ensuring safe and reliable operation even in hazardous environments. With a versatile range of H63-355mm, it is perfectly suited for integration into cranes and various heavy-duty construction machinery.

Technical Specifications

Safety Certification

Explosion-Proof • Ex

Frame Size Range

H63 - 355mm

Series

YFB

Primary Applications

Agricultural Machinery, Construction Machinery, Cranes

Design Standard Year

2007
