

Agricultural and Construction Material Elevator

This elevator is designed for lifting and transporting heavy loads in agricultural and construction environments. Its compact design and robust construction make it suitable for navigating tight spaces and handling demanding tasks.

Product Overview

Versatile Material Handling Solution

This agricultural and construction material elevator is engineered for efficient vertical transport of heavy loads in demanding work environments. Its compact, robust design allows for maneuverability in tight spaces while maintaining high performance. Equipped with adjustable forks and a comprehensive safety system, it ensures both operational flexibility and operator protection during heavy-duty tasks.

Technical Specifications

Mast Construction	Durable heavy-duty mast
Fork Configuration	Yes
Safety Systems	Overload Protection, Operator Safety System

Power and Performance

Battery Pack	High-Capacity • Extended Operation
Power System	Battery-powered

Application

Suitable Environments

- Agricultural sites
- Construction sites
- Tight-space operations
