

# Agricultural Drainage Water Pump

This high-performance water pump is designed for agricultural drainage and irrigation systems. It features a robust cast metal construction for durability and long-lasting performance.

## Product Overview

### High-Performance Agricultural Drainage Pump

This industrial-grade water pump is specifically engineered for demanding agricultural environments, including large-scale drainage and irrigation systems. Built with robust cast metal, it ensures long-term reliability and resilience in challenging field conditions. The optimized impeller design guarantees efficient water transfer, making it a dependable solution for diverse agricultural pumping needs.

## Technical Specifications

### Key Features

- Optimized impeller design for efficiency
- Robust cast metal housing for durability
- Engineered for high-volume drainage

<b>Construction Material</b>	Cast metal
<b>Primary Applications</b>	Agricultural Drainage, Irrigation Systems, Water Transfer
