

# Agricultural High-Pressure Spray Gun

This high-pressure spray gun is designed for use with agricultural machinery. It features a durable metal construction and a lever-operated valve for adjusting water flow.

## Product Overview

### High-Pressure Agricultural Utility

This high-pressure spray gun is engineered specifically for demanding agricultural environments. Featuring a robust metal construction, it ensures long-term durability and reliable performance during intensive use. The ergonomic design includes a comfortable handle grip and a precise lever-operated valve, allowing operators to easily control both water flow and spray patterns for various tasks like irrigation, equipment cleaning, and pest control.

## Technical Specifications

Construction Material	Durable metal
Valve Control	Lever-operated
Application Areas	Irrigation, Cleaning, Pest Control

## Features

### Design Features

- Comfortable red handle grip
- Adjustable spray pattern control
- High-pressure output capability
