

Agricultural Leaf and Debris Rake

This agricultural rake is designed for gathering leaves, hay, and other debris. It features high-strength steel tines and an ergonomic handle for comfortable use.

Product Overview

Professional Grade Agricultural Rake

This durable and efficient agricultural rake is engineered for gathering leaves, hay, and various types of debris. Constructed with high-strength steel tines, it ensures optimal performance and long-term reliability in demanding environments. Designed with an ergonomic handle, this tool minimizes operator fatigue during extended use, making it an ideal solution for maintaining gardens, lawns, and large fields.

Technical Specifications

Material	High-strength steel
Handle Design	Ergonomic design for reduced fatigue

Application

Suitable For	Professional Use • Home Use
Primary Applications	Leaf Collection, Hay Gathering, Debris Removal, Lawn Maintenance, Field Maintenance
