

Agricultural Machinery Cabin

This cabin is designed for various agricultural machinery, including tractors, harvesters, and sprayers. It provides a protected and comfortable environment for the operator.

ADDITIONAL IMAGES

Product Overview

Robust cabin structure with integrated lighting and operator controls.

Professional Operator Environment

These high-quality agricultural cabins are engineered to provide a safe, protected, and comfortable working environment for operators of tractors, harvesters, boom sprayers, and cotton pickers. Designed with a robust frame and extensive glass paneling for optimal visibility, they shield the operator from harsh field elements while minimizing noise and vibration. Each unit features integrated lighting systems and customizable control mounting, ensuring improved operational efficiency and worker comfort in demanding agricultural conditions.

Technical Specifications

Cabin interior layout optimized for instrument and control installation.

Electrical Systems

- KET wiring harness connectors
- Integrated lighting system
- Windshield wiper system
- Electronic monitor instrumentation

Dimensions

60 cm
