

Agricultural Machinery Chain

This high-strength agricultural chain is designed for demanding applications in farming machinery. Constructed from durable materials, it offers long-lasting performance and resistance to wear and tear.

Product Overview

Built for Harsh Agricultural Environments

This agricultural chain is engineered to meet the highest quality standards for outdoor farming applications. Designed to withstand aggressive conditions including high humidity, corrosion, and dust, it provides reliable power transmission for critical machinery. Its robust construction ensures long-lasting performance and wear resistance, making it an ideal choice for harvesters, planters, and conveyor systems.

Technical Specifications

Key Features

- High-strength steel construction
- Corrosion and dust resistant
- Precision-engineered for efficient power transmission
- Designed for heavy-duty agricultural machinery

Available Models

24B, 80, FB, 12S15, 40

Applications

Compatible Machinery

- Harvesters
- Planters
- Conveyors
- Various agricultural equipment
