

Agricultural Mist and Dust Sprayer

This agricultural tool is designed for efficient crop protection by generating a fine mist or dust cloud. It has a large-capacity tank for extended operation and an adjustable nozzle for precise control of spray patterns.

Product Overview

Efficient Crop Protection

The 3WZ-10 Mist and Dust Sprayer is a versatile agricultural tool designed for efficient crop protection and pest control. Featuring a powerful engine, it generates a fine mist or dust cloud to ensure thorough coverage of plants. Built for demanding field conditions, it includes a large-capacity tank for extended operation and a comfortable backpack harness for user convenience.
