

Agricultural Mist and Duster Machine

This mist and duster machine is designed for both agricultural and industrial use. It features a robust construction, a high-performance engine, and a specialized nozzle system for efficient application.

Overview

Professional Agricultural Mist and Duster

This versatile mist and duster machine is engineered for efficient application of agricultural solutions, including pesticides, herbicides, and disinfectants. Featuring a portable frame and high-performance engine, it is designed for both agricultural and industrial use. The specialized nozzle system allows for precise particle control, ensuring effective coverage in various environments.

Performance

Gasoline Consumption	1.8 litres/hour
Fog Granule Size	d0.5-50microns
Maximum Jet Output	5 litres

Technical Specifications

Weight (Empty)	7.5 kg
Fuel Tank Volume	1.1 litres
Medical Kit Volume	4 litres
Dimensions (L x W x H)	132 x 24 x 37 cm
Starting Method	Electric start
