

Agricultural Mist and Duster Machine

This mist and duster machine is designed for agricultural and industrial applications. It features a powerful engine and a large-capacity tank for extended use.

Product Overview

Versatile Agricultural Mist and Duster

This mist and duster machine is engineered for efficient agricultural and industrial applications, providing reliable performance for spraying pesticides, herbicides, and fertilizers. Featuring a robust engine and a high-capacity tank, it is designed for extended operation and ease of use in various crop protection tasks. The ergonomic construction ensures operator comfort during prolonged use, while its durable build guarantees a long service life in demanding environments.
