

# Agricultural Power Sprayer with Hose Reel

This agricultural power sprayer is designed for effective application of liquids in farming and gardening. It features a high-capacity tank, a powerful engine, and a durable frame.

## Product Overview

### High-Efficiency Agricultural Power Sprayer

This robust power sprayer is designed for effective liquid application in farming and gardening environments. Built to handle demanding conditions, it features a durable frame and high-capacity tank for consistent performance. The integrated hose reel ensures convenient storage and deployment, while adjustable nozzles allow for precise, uniform coverage during pest control, fertilization, or irrigation tasks.

## Performance Metrics

### Engine Power

**5.5 HP**

Engine Power

### Operating Pressure

**30 kg/cm<sup>2</sup>**

Max Pressure

### Flow Rate

**25 L/min**

Max Flow

## Technical Specifications

### Key Features

- Integrated hose reel
- Adjustable nozzles
- Heavy-duty frame
- Maneuverable wheels

### Rotational Speed

800-1200 RPM

### Primary Applications

Pest Control, Fertilization, Irrigation
