

Agricultural Rotary Tiller

This product is for hard work and site preparation types of agricultural machinery, mainly for dry land, paddy field of rotary operation.

Overview

Professional Agricultural Rotary Tiller

This high-performance agricultural tiller is engineered for efficient soil preparation in both dry land and paddy fields. Featuring a robust all-gear drive system and ductile iron gearbox, it provides exceptional durability and adaptability across various terrains, including plains, hills, and orchards. The machine offers a versatile platform that supports additional attachments for tasks such as pumping, spraying, and trenching, ensuring long-term reliability and ease of maintenance for professional operations.

Technical Specifications

| | |
|---------------|---------|
| Tillage Width | 1350 mm |
| Tillage Depth | 100 mm |
| Total Weight | 132 kg |
| Productivity | 50 ha/h |

Operational Features

Compatible Operations

- Pumping
- Power Generation
- Spraying
- Trenching
- Short-distance transport

| | |
|--------------------|--|
| Clutch System | Wet friction plate clutch |
| Power Source | Diesel |
| Ideal Environments | Dry Land, Paddy Fields, Orchards, Vegetable Gardens, Tea Plantations, Tobacco Fields |
