Product Overview

Professional Soil Preparation Solution

The Mod.TX rotary tiller is engineered for versatile soil preparation, making it an ideal choice for vineyards, orchards, and demanding crop environments. This implement is designed to be paired with tractors requiring relatively light equipment, ensuring high efficiency across a variety of field conditions. Its robust construction and rotating blade system effectively pulverize clods and aerate the soil to create a perfect seedbed.

Technical Specifications

PTO Speed	540 rpm
Rotor Revolutions	268 rpm
Hitch Category	Cat. I
Blades per Flange	6

Design & Drive

Drive System	Side Gear & Chain drive with grease lubrication
Gearbox	Single speed

Compliance & Safety

Safety Equipment

- CE safety guards
- PTO shaft with clutch

Certifications	CE, SGS, CCC
----------------	--------------
