

Agricultural Sprayers

This spraying machinery is designed for efficient and consistent coverage. Its robust construction ensures durability and its ergonomic design offers user comfort and control.

Product Overview

Professional Spraying Machinery

This high-performance spraying equipment is engineered for professional and DIY applications, providing consistent and uniform coverage for various materials. Featuring a robust construction, the unit is designed to maximize operational efficiency while minimizing material waste. Its ergonomic design ensures precise control and user comfort during extended spraying projects.

Technical Specifications

Available Model Variants

- FU
- MUFU
- MPLIFU
- PLIFU
- PUF
- WEED
- PUFU
- IFU
- W-71
- PUFT
- MUFO
- WUFU
- MUF

Suitable Materials

Paints, Coatings, Spreadable Materials

Key Features

Operational Efficiency

100 %

Coverage Consistency

1 Grade
