Overview

Versatile Agricultural Performance

The TB series tractors offer a robust range from 60 to 100 horsepower, designed to handle diverse farming tasks including plowing, tilling, seeding, and fertilizing. Featuring options for both two-wheel and four-wheel drive, these machines provide the torque and reliability required for demanding field conditions. Built for durability and operator efficiency, this series supports a wide array of implements to maximize your agricultural productivity.

Technical Specifications

Horsepower Range	60 - 100 hp
Drive System	2WD, 4WD
Gear Configuration	12 Forward + 12 Reverse
PTO Speed	540/1000 rpm

Performance Metrics

Key Operational Metrics

150 L

Fuel Capacity

Dimensions and Adjustments

Wheel Tread Specifications

Location	Adjustment Type
Front Wheel	1235/1335/1435 step adjustable
Rear Wheel	1000-1500 stepless adjustable

Compatibility and Systems

Supported Implements

- Plow
- Seeder
- Planter
- Cultivator
- Sprayer
- Fertilizer spreader

Suspension Type

Three-point linkage Category 2
