

Agricultural Tractor Tire

Agricultural tire designed for tractors and farm equipment. It features a ribbed tread pattern to provide enhanced traction on fields and soft surfaces, ensuring reliable grip and stability.

Product Overview

High-Performance Agricultural Tire

This agricultural tire is engineered specifically for tractors and heavy-duty farm equipment. Featuring a specialized ribbed tread pattern, it delivers superior traction and stability on soft soil and field surfaces. Built with durable, wear-resistant rubber compounds, this tire ensures long-lasting performance and reliability in demanding agricultural environments.
