

Agricultural Tractor with Enclosed Cab

This agricultural tractor is equipped with a fully enclosed cab for operator comfort and protection. Large treaded tires provide excellent off-road traction for use in diverse agricultural environments.

Product Overview

KM900 Agricultural Tractor

The KM900 is a robust agricultural tractor designed for demanding field operations. It features a fully enclosed cab with expansive glass windows for superior visibility and operator protection. Built for versatility, the unit incorporates large, high-traction treaded tires to navigate difficult terrain efficiently.
