

Agricultural Water Pump

This water pump is designed for agricultural drainage and irrigation. It features durable cast iron construction for longevity and corrosion resistance.

Product Overview

Professional Agricultural Irrigation Solution

The RSK-G108 is a robust water pump specifically engineered for demanding agricultural drainage and irrigation applications. Constructed with high-grade cast iron, it offers exceptional longevity and resistance to environmental corrosion. Its efficient design, featuring a specialized flanged impeller, ensures reliable water transfer and optimal flow rates even in harsh outdoor conditions.

Technical Specifications

Model Number	RSK-G108
Body Material	Cast Iron
Impeller Type	Flanged Impeller

Key Features

Installation Details

- Sturdy mounting base included
- Designed for secure field installation
- Optimized for quick maintenance access

Key Attributes	Corrosion Resistant, High Efficiency, Agricultural Grade, Easy Maintenance
