

# Agricultural Water Pump

This water pump is designed for efficient fluid circulation in agricultural machinery. It is constructed from durable cast aluminum for corrosion resistance and long-lasting performance.

## Product Overview

### High-Performance Agricultural Water Pump

This water pump is engineered for efficient fluid circulation within agricultural machinery and irrigation systems. Constructed from durable cast aluminum, it offers superior corrosion resistance for long-lasting performance in demanding field environments. Featuring a precision-engineered impeller, this unit delivers optimal flow rates and consistent pressure for reliable cooling and drainage applications.

## Technical Construction

Housing Material	Cast Aluminum
Key Features	Corrosion Resistant, High Durability, Precision Impeller

## Performance Specifications

### Primary Applications

- Agricultural machinery fluid circulation
- Drainage operations
- Irrigation systems
- Equipment cooling
