

Agricultural Water Pump

This robust water pump is designed for agricultural applications. It features a powerful engine for efficient water transfer, irrigation, and drainage.

Overview

High-Performance Agricultural Water Pump

This robust agricultural water pump is engineered for efficient water transfer, irrigation, and drainage tasks. Featuring a reliable 4-stroke, air-cooled engine, it delivers consistent performance in demanding environments. Its compact and durable design ensures easy handling while maintaining high flow rates for optimal agricultural productivity.

Performance Metrics

Key Performance Indicators

12 m³/h
Flow Rate

13 m
Lift Height

6 m
Suction Depth

Technical Specifications

Pipe Diameter	40 mm
Engine Configuration	4-stroke, air-cooled, single cylinder
Engine Model	KB152FA
Displacement	105 cc
Fuel Tank Capacity	1.4 L
Ignition/Starting System	Transistorized Magneto, Recoil Start

Logistics & Dimensions

Weight Specifications

Type	Weight
Gross Weight	12
Net Weight	11

Container Loading Capacity

700 units
20GP

1700 units
40HQ

Physical Dimensions	365 x 305 x 385 mm
