

# Agricultural Water Pump for Irrigation

This high-performance water pump is designed for agricultural drainage and irrigation systems. It features a robust construction for durability and efficient water transfer.

## Product Overview

### High-Performance Irrigation Solution

This water pump is specifically engineered for agricultural drainage and irrigation systems, providing reliable water transfer for demanding environments. Its robust construction ensures long-term durability and operational stability in the field. Perfectly compatible with H104 systems, this unit is designed to maximize efficiency and maintain optimal performance during critical irrigation periods.

## System Compatibility

Engineered Systems

H104 Systems

## Applications

### Primary Use Cases

- Agricultural Irrigation
- Drainage Systems

## Design Features

### Design Standard

Robust Construction • High Performance
