

Agricultural Wheel Tractor

This tractor is designed for agricultural applications. It features a robust engine, heavy-duty tires, and a functional design suitable for various farming tasks.

Product Overview

Robust Agricultural Performance

The TS-280 wheel tractor is engineered for high-performance agricultural tasks, combining durability with efficient power delivery. Built to handle demanding field conditions, it features a heavy-duty chassis and specialized tires designed to provide optimal traction on varying terrains. This reliable machinery is an essential asset for professionals seeking consistent output in diverse farming operations.

Key Metrics

Model Series	TS-280
