

Agricultural Wheel Tractor

This agricultural wheel tractor is designed for a variety of farming tasks. Its robust construction and hydraulic systems enable efficient plowing, tilling, planting, and harvesting.

Overview

Professional Agricultural Wheel Tractor

This powerful wheel tractor is specifically engineered for demanding agricultural tasks, featuring a robust chassis and a high-torque engine for consistent performance. Designed with operator comfort in mind, it includes a cabin with excellent visibility and advanced hydraulic systems for precise implement control. It is a versatile machine ideal for plowing, tilling, planting, and harvesting operations.

Technical Features

Key Equipment

- Robust chassis
- High-torque engine
- High-traction agricultural tires
- Ergonomic cabin
- Front hitch
- Rear hitch
- Advanced hydraulic system

Primary Agricultural Functions

Plowing, Tilling, Planting, Harvesting
