

Agricultural Wheel Tractor for Plowing and Tilling

This agricultural wheel tractor is designed for plowing and tilling applications. It features a fully enclosed cabin, large agricultural tires, and a robust chassis.

Product Overview

High-Performance Agricultural Tractor

This professional-grade wheel tractor is engineered for demanding agricultural tasks including plowing, tilling, planting, and harvesting. Featuring a robust chassis and a fully enclosed cabin, it provides the reliability and operator comfort necessary for long hours in the field. Large-diameter agricultural tires ensure superior traction across varied terrain, while the integrated hydraulic systems allow for efficient operation of diverse implements.

Technical Specifications

Model Identifier	1204
Key Features	Enclosed Cabin, Heavy-Duty Chassis, Hydraulic Systems, High-Traction Tires

Applications

Primary Applications

- Plowing
- Tilling
- Planting
- Harvesting
