

Agricultural Wheel Tractor

This wheel tractor is designed for agricultural applications such as plowing, planting, and harvesting. Its robust construction ensures durability and reliability for demanding farm work.

Product Overview

TS 804 Agricultural Tractor

The TS 804 is a robust wheel tractor engineered specifically for intensive agricultural applications, including plowing, planting, and harvesting. It features a fully enclosed cabin designed to maximize operator comfort and protection during long work hours. With its heavy-duty tire construction, this tractor provides reliable traction and stability across various challenging farm terrains.
