

Agriculture Power Generator

This agriculture machinery product is a robust and reliable power solution designed for various agricultural applications. Ideal for powering equipment in remote locations or during power outages, it ensures consistent performance and long-lasting durability in demanding environments.

Overview

Reliable Power for Agriculture

This agriculture power generator is a robust and dependable solution engineered for demanding field environments. Featuring a 4-stroke, air-cooled engine, it provides consistent power output suitable for remote locations or emergency backup needs. Its durable frame design ensures both equipment protection and portability, making it an essential tool for maintaining operational continuity.

Technical Specifications

Voltage and Amperage

Voltage (V)	Rated Amperage (A)
220	12
110	25

Engine Type	Single cylinder, 4-stroke, OHV 25°, air cooling
Rated Frequency	50/60 Hz
Power Factor	1

Physical Characteristics

Weight

- Gross Weight: 39 kg
- Net Weight: 37 kg

Dimensions	605 x 450 x 455 mm
------------	--------------------

Logistics

Container Loading Capacity

20GP: 235 units • 40HQ: 475 units
