

Air Compressor, 100W, 800-1520 RPM

This air compressor features a 100W motor operating between 800-1520 RPM. It is suitable for a range of pneumatic tools and equipment.

Overview

High-Performance Air Moving Solution

This versatile unit functions as both a blower and heater, making it a highly adaptable tool for various professional applications. Engineered for efficiency, it features a robust motor with variable speed control ranging from 800 to 1520 RPM. Its compact and durable design ensures reliable performance for pneumatic tools and equipment in demanding work environments.
