

# Air-Cooled Diesel Generator

This air-cooled diesel generator provides reliable power. It features a breaker switch, voltmeter, AC outlets, an engine start key, and a 12V DC output.

## Product Overview

### Reliable Power Generation

The SPCL4000 is a robust, air-cooled diesel generator designed for dependable power supply in demanding environments. Housed within a protective black frame, it features user-friendly controls including a key start, voltmeter, and integrated breaker switch. This versatile unit provides both AC and DC output options, making it suitable for a variety of professional applications.

## Technical Specifications

Model Number	SPCL4000
Cooling System	Air-Cooled
Fuel Type	Diesel
Certifications	CE

## Electrical Output

### DC Output

**12 V**

Voltage

**8.3 A**

Current

### AC Output Voltage

230 V

## Features

### Control Panel Features

- Breaker Switch
- Voltmeter
- Engine Start Key
- AC Outlets
- DC 12V Output

### Construction

Protective Frame • Enclosed Design
