

Air-Cooled Diesel Generator

This air-cooled diesel generator is designed for reliable power supply. It features a robust frame, control panel with indicators, and a high-performance diesel engine.

Overview

Reliable Power Generation

This air-cooled diesel generator is engineered for consistent and dependable performance in demanding environments. Designed with a robust frame and high-performance engine, it provides a stable power source suitable for industrial, commercial, and residential backup applications. Its efficient design ensures durability and reliability under various operating conditions.

Technical Specifications

Power Rating

30 kVA

Rated Power

Fuel Type

Diesel

Cooling System

Air-Cooled

Features

Ideal Applications

- Industrial backup power
- Commercial facilities
- Residential power supply

Key Design Features

Robust Frame, Control Panel, High-Performance Engine
