

Air-Cooled Four-Stroke Motorcycle Engine

This is a single-cylinder, four-stroke motorcycle engine with air-cooled cylinder fins. It is designed for smaller displacement motorcycles and scooters.

Overview

Compact Air-Cooled Engine Solution

This single-cylinder, four-stroke motorcycle engine is engineered for reliable performance in smaller displacement motorcycles and scooters. Featuring an integrated air-cooled cylinder fin design, it ensures efficient heat dissipation during operation. The unit comes fully equipped with essential components including a carburetor and spark plug, providing a ready-to-integrate solution for chassis assembly.

Technical Specifications

Cooling System

Air-Cooled

Included Components

- Carburetor
- Spark plug
- Mounting points

Engine Configuration

Single-cylinder, Four-stroke

Finish

Silver
