

Air Dryer Cooler for Cold Dryers

This air dryer cooler is designed for cold dryer machines and gas separation equipment. It ensures efficient heat transfer and optimal performance in demanding industrial environments.

Product Overview

High-Efficiency Air Dryer Cooler

This air dryer cooler is precision-engineered for gas separation equipment and industrial machinery applications. Utilizing a robust aluminum plate-bar structure, it delivers superior heat transfer efficiency and reliable temperature control. The unit is built to withstand high pressure while maintaining low noise levels, ensuring optimal performance in demanding industrial environments.

Technical Specifications

Flow Arrangements

- Counter-flow
- Cross-flow
- Cross-counter-flow

Core Construction

Aluminum plate-bar structure

Manufacturing Process

Vacuum brazed

Available Fin Types

Flattop fin, Louvered fin, Serrated fin, Wavy fin

Compliance & Standards

Quality Certifications

ISO 9001:2015 • CE Certified • EN15085 Compliant

Commercial Terms

Production Lead Time

30 days

Min Lead Time

45 days

Max Lead Time

Minimum Order Quantity

10 Pieces

FOB Port

Shanghai
