

Air Fryer

This oil-free fryer uses rapid air circulation technology for healthier cooking with little to no oil. It includes a temperature control knob, timer, non-stick basket, and a viewing window.

Overview

Healthy Cooking Technology

This oil-free fryer utilizes rapid air circulation technology to cook food with little to no oil, offering a healthier alternative to traditional frying. It features user-friendly controls including a temperature control knob for precise cooking settings and a timer function for automated operation. Designed with a non-stick cooking basket and a transparent viewing window, it ensures both ease of use and simple cleaning for any kitchen environment.
