

# Air Humidifier with UV-C Sterilization

This air humidifier improves air quality by adding moisture and reducing airborne pathogens. It features a multi-stage filtration system, including a HEPA filter and UV-C sterilization, to remove dust, allergens, and microorganisms.

## Overview

### Professional Air Quality Solution

This advanced humidification sterilizer is engineered to significantly improve indoor air quality by combining moisture control with comprehensive pathogen reduction. Utilizing a multi-stage filtration system that includes HEPA filtration and UV-C sterilization, it effectively targets dust, allergens, and airborne microorganisms. Designed for extended operation, this unit offers a robust water tank capacity and automated humidity regulation to ensure a comfortable and healthy environment in homes or professional offices.

## Key Performance Metrics

### Coverage Area

**500 sq ft**

Coverage Area

### Noise Level

**35 dB**

Max Noise

## Technical Specifications

Water Tank Capacity	13 L
Power Consumption	30 W
Operation Type	Mechanical

## Features

### Smart Features

- Built-in humidistat
- Automatic humidity maintenance
- Adjustable mist output

Filtration & Sterilization	HEPA Filter, UV-C Sterilization
