

# Air Purifier with 5-Layer Filtration

This air purifier is designed to remove pollutants and create a healthier environment. It features 5 layers of filtration, a digital display, touch control, and a remote control.

## Overview

### Advanced Air Purification Technology

The SJR-901 air purifier is engineered to deliver cleaner indoor environments through a robust 5-layer filtration system, including HEPA and activated carbon layers. Designed for versatility and ease of use, it features an intuitive acrylic touch panel, remote control operation, and an integrated TVOC odor sensor. With real-time monitoring of PM2.5 levels and indoor temperature, this unit effectively removes up to 99.7% of particulate matter, making it an ideal solution for maintaining air quality in residential or office spaces.

## Performance Metrics

### Purification Efficiency

**99.7 %**

PM2.5 Removal

**99.8 %**

Microorganism Removal

**88.9 %**

Formaldehyde Removal

## Technical Specifications

Dimensions	360 x 195 x 560 mm
Rated Power	35 W
Applicable Area	50~75 <sub>i</sub>

## Features

### Filtration Layers

- Composite Lake Net
- Initial Filtration
- HEPA Filter
- Activated Carbon
- Anion Technology

### Sensors & Monitoring

TVOC Odor Sensor • PM2.5 Display • Temperature Display • Filter Replacement Reminder

### Control Options

Touch Control, Remote Control, 3-Speed Control

## Compliance

Certifications	CE, RoHS
